

Dual Fuel For Higher Efficiency!

Servicing is simpler than ever...with quality you can feel

- Combines two fuel sources for higher efficiency—heat pump operates at moderate temperatures and switches to more efficient gas furnace when temperatures fall
- Scroll compressor in the heat pump and tubular stainless steel heat exchanger ensure top energy efficiency
- Embossed graphics on access panels make it easy to locate compressor, blower motor, and electrical panel
- Rugged pre-painted steel cabinet, full-perimeter metal base rails, and wire grilles to protect the coils
- Direct spark ignition system
- Advanced electronic integrated defrost control keeps coils clear for efficient operation
- Copper/aluminum coils and quality copper tubing with TVX for proper refrigerant flow
- No Hassle Replacement™ limited warranty
- 10 year parts limited warranty*
- 2- to 5-ton capacities

* Timely registration required for 10 year parts limited warranty. Please see warranty certificate for further details and restrictions.
